

Washington State Elections Weekly

August 28, 2013

We want you!

Are you interested in joining the state elections team. Here are two exciting opportunities:

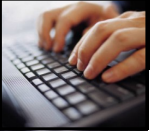

- Voter Education and Outreach Web Coordinator – Open now
- Administrative Assistant 4 – Opens Thursday, August 29

Follow the [link](#) to apply.

Pilot project – OVG campaign contributor info

Is your county interested in providing direct links from the online Voters' Guide to campaign contributor information for your local candidates and ballot measures? To foster greater transparency and provide more information for voters, we worked with the Public Disclosure Commission (PDC) to provide direct links for state candidates and ballot measures from our online Voters' Guide. The links, "Who donated to this candidate's campaign?" and "Who donated to these ballot measure campaigns?" can be found on each candidate's or ballot measure's page. We would like to make this available to you for all local candidates and ballot measures beginning next year. Tell us what you think with an email to [WEIsupport](#).

VRDB data integrity

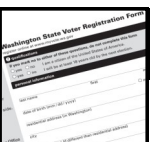

338 voters were [pended](#) as potentially deceased.

WEI – downloading statements

If you download General Election statements from WEI Admin, it downloads the **statement** for the General but incorrectly downloads the **photo** for the Primary. We have reported this as a bug.

If the statements download to an empty or invalid zip file, that means a photo is missing from the Primary for one or more of the candidates. There must be a Primary photo to download a statement. Email [WEIsupport](#) if you need a placeholder image (No Photo Submitted) to upload for the candidate.

Motor Voter

The network issue that delayed Motor Voter has been fixed. We are working on retrieving the records for the past four days. We've also corrected the WEI public page display issue.
